The Collaboration Climb

Of the \$1 trillion spent every year in the design and construction industry, 40% is waste. Only 10% of that is material waste, while attitude & behavior accounts for the other \$360 billion. This gives us 360 billion reasons to figure out how to behaviorally collaborate deeper. Let's go for it!

Where do I start?

It's a sequential journey that's best started at the beginning; at step 1 and climb until you reach step 4.

Where will it take me?

To heights in satisfaction, project productivity and value for money the industry hasn't seen before.

What problems will it solve that I cannot solve myself?

The solution to collaborating deeper by its very nature is not something you can figure out in isolation. It's best figured-out sharing with like-minded others focused on the same thing.

Step 1

Create an Emotional Connection to Collaboration

Collaborate Deeper to Increase Team Strength & Speed Introductory Workshop, April, September

This workshop helps you get to the heart of how we can collaborate deeper in our industry to increase team strength & speed. Specifically, how to take action in your organization and on the project itself. It draws on continual, thought-leading research and the real-life experience of participants on collaborative projects. eLearning & Webinar version available.

Step 2

Learn How to Collaborate with Intention

Collaboration Strategy Boot Camp, April

Learn the "what and why" of collaboration. Participants will define collaboration for their organization and make collaboration a strategy to reach their organization's objective. eLearning version available.

Collaboration Leadership Lab, June

This program installs the "how" of collaboration within a framework in which to operate and through collaborative knowledge & skills. You will be equipped to effectively participate on collaborative projects effortlessly, like breathing.

Collaboration Change Leadership Boot Camp, September

Create the environment necessary to bring others along and effect long-term, meaningful change in your organization. Evolve your culture (with intention) to a culture based on collaboration using a change model and industry-customized tools.

Step 3

Learn How to Institutionalize Collaboration

The Collaboration Forum, February

This one-of-a-kind, annual Forum draws together collaboration experts and practitioners into one room to build relationships, leadership, deliver just-in-time support and select a common objective to reach collectively.

The Collaboration Consulting Team, On-Demand

Receive support from best-in-class BIM, Collaboration and LEAN experts to help your organization implement collaborative strategy, collaborative skills and behavior training as well as successfully implement a collaborative change leadership plan. This team will work with you to evolve a collaborative culture to effect long-term results.

Step 4

Creating Collaboration Thought Leadership

Collaboration Practitioner Leadership Group, On-Demand

Be part of a peer group which delivers support to its members and guides the collaboration research partnership between the Collaboration Academy and various institutions of higher learning.
